A. Faculty & Academic Quality

1. What is the attrition rate in the school? Do teachers move out mid-session?

Teachers generally transition after the completion of the academic session. In unavoidable circumstances, if a teacher exits mid-session, we ensure that the class and students are seamlessly supported. We have qualified and trained additional teachers who take over to ensure continuity of lessons and maintain the quality of teaching.

2. What is the experience level of the teachers in the school?

All teachers are well-qualified and possess the required academic and professional credentials. The school ensures that faculty recruitment and qualifications strictly align with the prescribed educational norms and standards, maintaining a high level of academic excellence and professionalism.

3. What is the teacher-student ratio?

• Pre-Primary: Two teachers and one helping staff member for a maximum of 30 students.
• Grade 1: Two teachers for up to 40 students.
• Grade 2 onwards: One class teacher along with subject teachers for up to 40 students.

4. How often are Parent-Teacher Meetings conducted?

Parent-Teacher Meetings are conducted approximately three to four times during the academic year.

5. What is the process for parents to share concerns or complaints with the school?

Parents may schedule an appointment through the school application or discuss their concerns during PTMs. We ensure all concerns are addressed in a structured and timely manner.

6. How will the school maintain quality as student strength increases?

To maintain quality, we focus on increasing the number of sections rather than increasing the number of students per classroom.

7. How are teachers trained and updated with new teaching practices?

Teachers undergo regular professional development programs, workshops, and training sessions throughout the academic year. The school ensures that faculty members stay updated with evolving pedagogical methods and curriculum changes.

8. How is teacher performance evaluated?

Teacher performance is reviewed through classroom observations, academic outcomes, feedback from coordinators, and structured appraisal systems. Continuous mentoring and support are provided to enhance teaching effectiveness.

9. Are substitute teachers available during staff absence?
Yes, trained substitute teachers are available to ensure that academic continuity is maintained without disruption to the learning process.

B. Curriculum & Academic Structure

10. Why are books from other publishers used instead of NCERT?

NCERT textbooks are mandatory for Grades IX to XII. For other grades, schools may select publications that align with the CBSE curriculum.

11. What is the maximum student strength per class?

The school maintains an optimal student–teacher ratio to ensure personalized attention and effective classroom engagement. Class strength is planned in alignment with prescribed educational guidelines, allowing flexibility to accommodate students as per regulatory norms when required.

12. What is the examination schedule for different grades?
The school follows a structured assessment schedule that includes periodic evaluations spread across the academic year. These assessments are conducted at regular intervals to monitor student progress and support continuous learning. Students are provided with adequate revision time and preparatory guidance to help them approach evaluations with confidence and reduced stress.

13. Are foreign languages offered?
Foreign language options may be introduced based on curriculum structure, student demand, and grade level. The school periodically reviews language offerings.

14. How are report cards structured?
Report cards include scholastic performance, co-scholastic achievements, life skills evaluation, attendance, and teacher remarks to provide a holistic overview of the child's development.

15. Is there support for board exam preparation?
Yes, structured revision plans, practice papers, doubt-solving sessions, and counselling support are provided for board exam students to ensure thorough preparation.

C. Teaching & Learning Approach

16. What is your teaching methodology? Is it traditional or experiential?

We follow a balanced approach that integrates both traditional and experiential teaching methodologies to ensure conceptual clarity as well as practical understanding.

17. How do you assess students beyond written examinations?

In addition to written assessments, we maintain Mentor-Mentee Reports and My Milestone Reports. For senior grades, we also implement an Individual Development Program (IDP) to monitor and support holistic student growth.

18. Do you offer remedial or enrichment programs for advanced learners?

Yes, we conduct Step-Up classes to support students who require additional academic assistance. We also guide and support students whose parents choose to enrol them in external examinations such as Olympiads, Spell Bee, and similar competitive platforms.

19. If my child is unable to cope with certain subjects, how will support be provided?

We conduct Step-Up classes in all subjects to address learning gaps and provide academic support. These sessions are followed by assessments to evaluate concept clarity. Reports of these assessments are shared with parents to keep them informed about their child's progress.

20. How much time are parents required to dedicate to homework?

Homework is generally light and focuses on reading, revision, and practice. During project submissions, which are research-based, parental guidance may be required to assist the child in gathering information and completing the work. Otherwise, supervision is sufficient.

21. How do you integrate technology into learning?

We provide an online learning platform beginning from Grade 1. Additionally, we share weekly academic updates through Microsoft worksheets, allowing parents to review the topics covered during the week.

22. How do you handle different learning styles?
Teachers incorporate visual, auditory, and kinesthetics learning strategies in classroom instruction to accommodate diverse learning preferences.

23. How do you ensure conceptual clarity?
Concept reinforcement is done through regular revision, worksheets, practical demonstrations, group discussions, and formative assessments.

24. Are field trips or experiential visits organized?
Yes, educational field trips and experiential visits are organized periodically to connect classroom learning with real-world exposure.

25. How do you prepare students for competitive exams?
The school provides guidance, additional resources, and encouragement for students participating in Olympiads and competitive examinations.

D. Sports, Activities & Talent Development

26. Do you train students in all sports activities?

Students are encouraged to participate in a wide range of sports and physical education activities as part of the regular curriculum. The school promotes overall physical development by providing opportunities for students to engage in diverse sports and fitness programs during designated Sports/PE periods.

27. Are sports activities part of the curriculum or extracurricular?

Sports are offered both as a part of the regular curriculum and as an After School Activity (ASA).

28. Are all students invited to the Sports Fest inauguration when a sports celebrity is invited?

The student body is invited for the event. Your suggestion regarding wider participation will also be considered.

29. Will the number of hobby club themes increase?

Yes, as the student strength increases, the variety of hobby club options will also expand. We continuously review student interests and parental feedback to introduce new and engaging themes. Our aim is to provide diverse opportunities that cater to different talents, creativity, and skill development areas.

30. Can a student enrol in a second hobby club by paying an additional fee?

No. As per school policy, each student is permitted to enrol in only one hobby club per academic year.

31. How do you identify and nurture a child's talent?

We monitor student development through Mentor-Mentee Reports and the Leader in Me program, which focuses on leadership qualities, strengths, and overall personality development.

32. Do students participate in inter-school competitions?

Yes, students actively participate in inter-school competitions in both sports and academics from the Pre-Primary level onwards. For instance, we organize and participate in football leagues for K1 and K2 students, encouraging early exposure to teamwork, confidence-building, and healthy competition.

33. Do you provide professional coaching in sports?
Qualified coaches conduct sports training sessions. Advanced training opportunities may be offered for students showing exceptional potential.

34. What cultural activities are conducted?
The school organizes annual day celebrations, competitions, festivals, talent showcases, and literary/art events to promote creativity and confidence.

35. How are hobby clubs structured?
Hobby clubs operate on a structured schedule with defined learning outcomes and culminate in presentations, exhibitions, or performances.

E. Safety & Security

36. What safety measures are in place on campus?

The campus follows comprehensive safety and security protocols to ensure a safe learning environment for all students and staff. The premises are under continuous surveillance, with trained security personnel deployed across the campus. Adequate support staff are present on all floors and in classrooms to supervise and assist students. Strict monitoring systems and well-defined safety procedures are implemented to maintain a secure and well-managed campus environment.

37. Are teachers and staff trained in first aid?

The school ensures that appropriate medical support is always available on campus. A qualified healthcare professional is stationed on the premises to address any immediate medical needs. Additionally, the school has arrangements with a nearby medical facility, and emergency medical assistance, including ambulance services, can be accessed promptly whenever required.

38. Do you conduct evacuation or safety drills?

Yes, evacuation and safety drills are conducted twice a year.

39. Are bus staff trained and verified?

Yes, we have a strict training and verification policy for bus drivers and helping staff. Training sessions are conducted twice a year to ensure safety compliance.

40. Can seat belts be considered in school buses?
This is a valuable suggestion for student safety. We will certainly share this feedback with the concerned department.

41. How is student attendance managed for transport users?

Transport students are marked through a dedicated attendance register and a punching system where students scan their school ID cards.

42. Can we receive access to CCTV footage?

We do not provide direct CCTV access to parents for security reasons. However, if a specific situation arises and you would like to review a particular incident, you may

inform the school authorities, and we will assist you accordingly by facilitating access to the relevant footage.

43. Can we receive recordings of classroom teaching sessions?

For privacy and safety reasons, classroom recordings are not shared. Classrooms include female staff members and students, and circulating recordings may raise privacy concerns among parents. However, we upload a weekly update of the teaching conducted on the Microsoft worksheet platform for your reference, so you may review the topics covered during that week.

44. How do you ensure child protection and anti-bullying measures?
The school follows a strict anti-bullying policy. Awareness programs, counselling support, and prompt intervention procedures are in place to maintain a safe environment.

45. How are visitors monitored on campus?
All visitors must register at the security desk and follow the school's entry protocols before accessing campus areas.

F. Fees & Financial Policies

46. Transport fees increase annually. Can the cost remain the same?

Transport charges are revised annually due to increases in operational costs such as fuel, maintenance, and staffing. Therefore, the fees cannot remain unchanged each year.

47. Can transport fees be split into more than two instalments?

At present, there is no provision for splitting transport fees into more than two instalments.

48. Is one-way transport facility available?

Currently, we do not offer a one-way transport facility.

49. There is a significant tuition fee increase from EFS to EIS. Can the fees remain the same for two years?

The increase is due to a change in fee slabs when students transition from EFS to EIS. This reflects differences in curriculum structure, facilities, and academic requirements.

50. The fee hike between Grade 5 and Grade 6 appears significant. What is the reason?

The change from Primary to Middle School results in a fee slab revision due to segment transition. The tuition fee includes the addition of a third language, science lab exposure, sports competitions, and other academic enhancements.

51. Are scholarships available?

Currently, scholarships are not offered.

52. What is the refund policy in case of withdrawal?
Refund policies are governed by the school's admission and fee regulations and are communicated at the time of admission.

G. Values, Discipline & Well-being

53. Are there classes for spiritual learning, shlokas, or mantras?

While we appreciate the suggestion, the school does not endorse any specific religion or faith. Our morning assembly consists of a Hindi prayer followed by the National Anthem and a mindfulness session, which includes meditation and daily positive affirmations.

54. Is there a school counsellor available for students?

Yes, we have certified behavioural counsellors available on campus. Students facing academic or peer-related concerns may approach them. Parents may also schedule appointments with the counsellors if required.

55. How do you inculcate discipline and values?

Discipline and values are nurtured through structured activities, life skills programs, counselling support, and daily positive affirmations conducted during the morning assembly.

H. Infrastructure & Facilities (New Category – Highly Asked by Parents)

56. Are classrooms air-conditioned and well-ventilated?
Classrooms are designed to ensure proper ventilation, lighting, and comfort to create an effective learning environment.

57. Do you have science and computer labs?
Yes, the school has well-equipped laboratories and technology-enabled spaces to support practical learning.

58. Is there a library facility?
A well-stocked library with age-appropriate books and digital resources is available to promote reading habits.

59. Is there CCTV coverage in common areas?
Yes, common areas are under CCTV surveillance to ensure student safety.

I. Admissions & Transition Support

60. Is there an entrance test for admission?
Admissions may include an interaction or assessment process depending on the grade level.

61. How do you support new students adjusting to school?
Orientation programs, mentor support are provided to help new students transition smoothly.

62. Can parents volunteer or participate in school activities?
Parent involvement opportunities may be offered during events, workshops, or special programs.
